RE: JOBSITE FABRICATION OF ANCHOR BOLTS FOR  
STATION #50 and #60

July 15, 1953

How Nan 8408, Chenoweth to Ockerman, requested Jobsite fabrication of anchor bolts for Stations #20, #50, #60, #1201, #2210, and #2211. It also stated that as information as to the quantities needed became available you would be advised by memo.

Following are the anchor bolts needed for Stations #50, and #60 as shown on preliminary prints:

STATION #50

- 28 Each ANCHOR BOLTS - 1" x 1'-3" with nuts (either square or hex head nuts)
- 28 Each WASHER - Plate, Steel, 3-1/2" x 1/2" x 3-1/2"

STATION #60

- 24 Each ANCHOR BOLTS - 1" x 1'-3" with nuts (either square or hex head nuts)
- 24 Each WASHER - Plate, Steel, 3-1/2" x 1/2" x 3-1/2"

You will be advised as soon as information is received on the balance of the stations.
