ANNOUNCEMENT OF HARDTACK SHOTS

SYMBOL: SECY:RVW

1. At Meeting 1381 on June 12, 1958, the Commissioners discussed a proposal by Mr. Libby to expand the announcement of shots in the HARDTACK series to include the purpose of the shot, the place of firing, the yield in megaton or kiloton range, the coordinates of the firing place to the nearest second and the time of detonation to the nearest tenth of a second.
2. The Commissioners, however, deferred a final decision on the proposal until after the conclusion of Operation HARDTACK.
3. This will confirm that we will re-schedule this matter for consideration at an appropriate meeting in the fall.

cc: Commissioner Libby  
General Manager  
Asst. Gen. Mgr. for Adm.  
General Counsel
