MAR 3 1954

Dear Paul:

This is to acknowledge with thanks your letter of February 17th. As yet there has been no decision on the release of the film about the 1952 weapons tests, and I should not think that one is likely before your April meeting. Of course, if it should be released, you ought to have it. I am sending a copy of this letter to Morse Salisbury so that if I should not be here, he will be on notice to get in touch with you about it.

I enjoyed meeting with your group last month, certainly as much or probably more than they were to have me.

Sincerely yours,

Lewis L. Strauss
