DISPOSITION OF PACIFIC PROVING GROUNDS

During the Commission meeting on the morning of April 22, 1948, Mr. Maymack raised the question of the disposition of the Pacific proving grounds on completion of Operation Sandstone. The General Manager stated that you were considering the problem, had discussed it with him, and would submit a report for Commission consideration at an early meeting. This note will call to your attention the Commission's interest in the matter, and remind you, on behalf of the General Manager, of the importance of getting a recommendation before the Commission soon.
