SUBJECT: Review of Marshall Island Documents (94SA20B000027-HS)

This is a partial response to your February 16, 1994, request that we review various documents for classified information pertaining to radioactive fallout on the Marshall Island. We have completed our review of the document at attachment 1. As a result of your review and the review by the Central Intelligence Agency, we have declassified the document.

Please note that several documents are still being reviewed by the Department of State. We shall return these documents to you when these reviews have been completed.

In addition to your response to the requester, you are reminded that bibliographical information from all declassified and publicly releasable documents must be made available for inclusion in OpenNet. Attachment 2 provides procedures for furnishing OpenNet with the required information.

If you have any questions, please contact Dr. Andrew P. Weston-Dawkes at 3-5478.
