Dear Vic:

Enclosed are my comments on the 4/24/78 draft. If you have any questions, we can discuss them June 5/6.

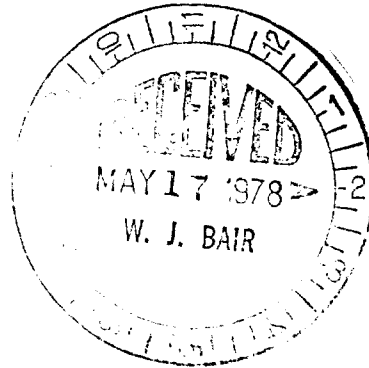

Sincerely yours,

William L. Templeton  
Associate Manager  
Ecosystems Department

This will provide a more accurate basis for assessing the average and maximum annual bone dose rates.

2) Dose p. 10. Concentration is  
recalculated as soon as additional LLL data on  
concentration ratio becomes available.
