- b. Today is WAHOO minus one, HOLLY minus three, and SYCAMORE minus three.
- c. The dry run for WAHOO today was plagued with a series of mishaps which included a minor accident to a TG 7.3 sailor, and the failure of the coracles to receive a shut-down signal at the end of the dry run. As of 1810 hours, TG 7.3 personnel in the target array were recommending a delay of 3 or 4 days according to LCDR Johnson. At 1810 Don Shuster, General Luedecke, and Admiral Tyree were meeting to discuss the problem. (FAP)
- d. Reference item 2c above. It has been decided that the event will go tomorrow, but will be delayed until between 1300 and 1400 hours. The device will start to be lowered at 0830 hours tomorrow morning. (FAP)
