Dr. Joseph G. Hamilton  
Crocker Laboratory  
University of California  
Berkeley 4, California

Dear Joe:

Thanks a lot for your letter of November 1 with your comments on the plutonium problem in Wright Langham's work. It was very helpful to have your personal views in the matter and Gordon Dunning, who has been working very closely with Dr. Berlin, undoubtedly has access to your communication with Nate.

I was sorry not to have had a longer visit with you in the airport last September, but hope it won't be too long before we can sit down and talk things over again.

With best wishes,

Sincerely yours,

Charles L. Dunham, M.D.  
Director, Division of  
Biology and Medicine
