Dear Dr. Harley:

At the request of Dr. W. R. Boss, Division of Biology and Medicine we are sending you ten (10) additional samples of material collected at various locations in the Marshall Islands. Some of this material is the remainder of our portion of material divided with your laboratory. For convenience in checking the material, we are enclosing copies of A. H. Seymour's letters of October 26 and November 9, 1955.

The following list gives the pertinent information on the samples:
