Attached correspondence is forwarded for information and comment.

I anticipate that formal return of Bikini will be deferred until the Cleanup work we have undertaken has been completed and AEC is satisfied that the Atoll is OK from the viewpoint of radiological safety -- subject of course to whatever limitations or restrictions may be necessary.

Any comment and recommendations concerning the suggestion posed by Mrs. Van Cleve in the second paragraph of the attached letter would

## Attachment 71

## OpenNet Requirements

All documents declassified and publicly releasable on or after October 1, 1994, must have bibliographic information made available to be entered into the Department of Energy (DOE) OpenNet database. The minimum requirements are as follows:

- 1) Accession number to uniquely identify the document
- 2) Title of the document
- 3) Location of the document (where the public can obtain a copy)
- 4) Originating organization
- 5) Document type (memo, letter, report, etc...)
- 6) Declassification status (declassified, sanitized, never classified, etc...)

Software that is compatible with the OpenNet is available from Office of Scientific and Technical Information and may be obtained by calling Mr. Axel Ringe at (615) 576-2616.

If you are currently maintaining an electronic card file, please contact Mr. Ringe at (615) 576-2616 to arrange downloading of the data into the proper format for OpenNet.

A copy of each declassified document as well as a floppy disk containing the required bibliographic information must be sent to the DOE public reading room.

Additional information regarding OpenNet may be obtained from Mr. Fletcher Whitworth at (301) 903-4864.
