Office Memorandum • UNITED STATES GOVERNMENT

TO : Those Listed Below

DATE: April 16, 1958

FROM : *P. S. Jacques for*
Morse Salisbury, Director
Division of Information Services

SUBJECT: UPDATING OF ANNOUNCEMENT ON PUBLIC HEALTH AND SAFETY PRECAUTIONS
FOR PACIFIC TESTS

SYMBOL: ISP:CAP

Attached is a copy of the announcement which was made at the beginning of the REDWING test series discussing in detail the precautions taken to protect the public health and safety. There is an immediate need for the issuance of an updated version of the announcement. Since this will be a cooperative effort, as no one division possesses all the information necessary to do the job, we propose that a meeting be held in Room C-470 on Thursday, April 17 at 10 A.M. to allocate portions for revision. Would you send a representative prepared to comment on the release. We would appreciate any suggestions for additional sections.
