

November 24, 1970

Lt.Cdr. Charles R. Macvean
Office of Assistant to the
Secretary of Defense (AE)
Room 3B1062, Pentagon
Washington, D. C. 20301

Dear Commander Macvean:

Enclosed please find the list of service personnel who were on Rongerik in 1954. Dr. Goldstein, Chief of our Medical Research Branch, was able to obtain this list from DASA; however, he believes that if you wish to determine whether or not these men have been followed medically it will be necessary to do this through the Surgeon General of the Army and Air Force, as applicable.

Before release of this information, you may wish to contact the DASA Surgeon, Colonel Edward Huxke, particularly regarding any question of confidentiality. It is my understanding that they have also had inquiries regarding this matter.

Sincerely,
