PERSONNEL PARTICIPATING IN ENIWETOK RADIOLOGICAL SURVEY

Attached is a list of personnel who will participate in the upcoming AEC Eniwetok radiological survey. The survey is expected to start on or about October 14 and extend over a period of about 2 months. It is anticipated that 31 of those on the attached list, plus all supplies and equipment will be transported by a special charter (C-141) from Travis to Eniwetok. The flight is tentatively scheduled to leave Travis on October 13 with a stop-over in Honolulu, then to Eniwetok via Kwajalein on October 14. Additional travel arrangements will be required on MAC to accommodate personnel rotations throughout the survey period.

Additional requirements from your office are shipments to Eniwetok of 160 liters liquid nitrogen every second week beginning on October 25, and 250 lbs dry ice every week beginning on October 18.

Any additional information on schedules and requirements will be forwarded as soon as available.
