COMMISSION DECISION ON AEC 952/15 - FILM REQUIREMENTS FOR OPERATION HARDTACK

SYMBOL: SECY:RVW

1. This will confirm our telephone notification on October 24, that at Meeting 1309 on October 23, the Commission:

a. Approved the production of a minimal amount of classified and potentially declassifiable archival-historical film footages and still photographs for Operation HARDTACK as described in paragraph 5 of AEC 952/15;

b. Noted that "Quickie" films will not be produced for Operation HARDTACK;

c. Noted that neither JTF-7 nor the AEC will produce an over-all classified documentary motion picture film on Operation HARDTACK;

d. Noted that DMA will brief the Commission as soon after each shot as possible, either by verbal report or Test Bulletins, as is currently being done for Operation PLUMBBOB;

e. Noted that the archival-historical film project is entirely separate from technical photography, i.e., diagnostic or record photography necessary to the conduct of a technical program or project. Such technical photography will be considered a part of the test project concerned;

f. Noted that the responsibility for coordination and preparation of the archival-historical film footage will be borne by the Commander, Joint Task Force SEVEN, who will insure that the AEC programs are covered;

g. Noted that all monies for the production of the archival-historical film footage (not to exceed \$20,000) will be transferred from the AEC to the Task Force Commander. The total cost of the necessary film footage has been informally estimated to be \$16,300;

h. Noted that the Commander, JTF-7 will be notified of AEC film requirements for HARDTACK by letter such as Appendix "B" to AEC 952/15, as revised;
