MEDICINE, HEALTH & SAFETY - 7

Dr. Ira B. Whitney
Assistant Chief
Analytical Branch
Health and Safety Laboratory
U.S. Atomic Energy Commission
New York Operations Office
70 Columbus Avenue
New York 23, New York

Dear Dr. Whitney:

We have your letter of March 30 and are happy you will be coming by this way. We have made reservations for you at the Edmond Meany Hotel, in the University District. While this hotel is some distance from the central business district, it is handy for your visit to the laboratory. We will call for you at the hotel on the morning of the 25th.

Dr. Welander checked on the samples that were in doubt and tabulated the information as follows:

<u>Hash</u>	<u>Specimen Number</u>	<u>Date Captured</u>	<u>Place Captured</u>	<u>Species</u>	
3018 } 3019 }	1349	Nov. 26, 1954	Deep Pass Eniwetok	Bonito <u>Euthynnus yaito</u>	
3020 } 3021 }	1353	Nov. 26, 1954	Off Yvonne Eniwetok	" "	2137 g fish
3022	1361	Nov. 26, 1954	South of crater Eniwetok	" "	2188 g fish
3023 } 3024 }	1370	Nov. 23, 1954	Off Yvonne Eniwetok	" "	2500 g fish

Give us a call at Melrose 0630, Extension 2295, or at my home phone, Ke. 3899, if you have any questions.

Sincerely,

Lauren R. Donaldson
Director
