TO: R. P. CONNELL

SUBJECT: EPG Salary Rates and Per Diem Allowances

As discussed, the following is submitted for your records.

Cooper Development Corporation under Subcontract 108 will have a field crew of ten to fifteen persons at EPG during Hardtack. Salary reimbursement and per diem expenses will be in accordance with UCRL policies and procedures.

Cooper has advised that they have a contract with the Office of Naval Research under Program 9.1D under the technical direction of Dr.Hanscomb of ONR wherein Cooper is a subcontractor and project officer and will provide approximately seven people for duty on Hardtack at EPG. Per Cooper's Navy contract, personnel will receive a per diem of $12.00. They will also receive salary on the basis of 54 hours plus 25% of this amount for dislocation.

Cooper has another program sponsored by NOL wherein WASP rockets will be fired from a ship. This involves one or two men who will be paid on the above standards.

Cooper was advised that under AEC regulations, we cannot pay Navy allowances.
