4. AEC 912/8 - Exchange Guide for Transmittal of Atomic Information by the DOD to Australia

5. AEC 646/57 - Ad Hoc Committee on AEC-Industrial Relations

Mr. Libby informed Mr. Strauss that at Meeting 1343 Mr. Fields had withdrawn AEC 646/57. After a review of the question of an ad hoc committee on AEC industrial relations, recommendations would be submitted to the Commission on the establishment of a responsible group within the Commission for receiving and evaluating comments by private industry about AEC's industrial policies and for recommending changes suggested by industrial groups.

Mr. Strauss commented on the Commission's previous experience with the Industrial Advisory Committee which had not been successful. He added that if a similar group were to be established, it should be composed of highly qualified individuals who would serve on a rotating basis.

The Commissioners then requested consideration of the establishment of a committee of industrial representatives to advise AEC on industrial atomic energy matters and to serve as a liaison group between AEC and industry generally.

6. AEC 194/39 - Allied Chemical and Dye Corporation Contract

\*Subsequent to this Meeting, the General Manager reported to the Secretary that on March 21, 1958, Mr. Strauss had withdrawn his request for deferral of action on AEC 781/87. Therefore, the Division of Military Application proceeded with the implementing action on the basis of the decision at Meeting 1343 on March 18, 1958.
