

154 C. - Science for Education

opportunities

Science and Technology

Selected Areas of Basic Scientific Research
(Developed at the November 22, 1957, Meeting of the
Science Advisory Committee)

407117

BX

Fields

Projects

- Operations of Brains
- Information Theory and Genetics
- Analysis (Nash Math)
- Materials
 - Visco-Elasticity
- Physics of Weather
- Structure of Language
- Geophysics
- Climatology
- Development of Modern Man
- Electronics of Genetics
- High Temperature Chemistry

- Controlled Fusion
- Power and Energy
- Machine Engineering
- Water
- Food
- Space Science
- Support of Scientific Journals

- Research Institutes
- Capital Equipment for Research

- MISSILE PROP., FUELS, &
RIVER
