BOX No. 183 (NN3-326-43 circ)
FOLDER MR & A 7, Redwing Vol II

Dear Bill:

This is simply to make formal my oral invitation to you to join me in witnessing one or more of the detonations in the 1956 series of nuclear tests to be held at Eniwetok.

As I indicated to you previously, I plan to make the trip during the last two weeks of June. It now appears that I will depart Washington on about June 15 so as to arrive in the forward area at a time to permit observation of the detonation of one of our megaton test devices. In general, the trip will follow a schedule of three days spent en route Eniwetok, with overnight stops at Travis Air Force Base in California and Hickam Air Force Base in Hawaii, a stay of four days in the Pacific Proving Ground area, and a period of four days spent on the return trip. All told, the time away from Washington will be about eleven or twelve days.

My staff is making the necessary arrangements for the trip, and I will provide you with additional information as it becomes available.

I am looking forward to your making the trip with me.

Faithfully yours,
