TOP SECRET TASK FORCE COMMANDER'S REPORT FILM ON REDWING

Symbol: MAP:LMB

As discussed between you and Mr. Leonard M. Brenner, of this office, a sixty minute Top Secret Task Force Commander's report film on REDWING has been prepared and will be available in approximately two weeks for showing to the Commission in a sixteen millimeter sound version.

There is currently available a thirty-five millimeter version for showing earlier than the week of November 12 if this is deemed desirable. However, it is my understanding that it would be more convenient to schedule this showing for the Commission some time during the week beginning November 12 at which time we should have our own sixteen millimeter copy of the film.

Mr. Brenner will call your office as soon as the film arrives so that you may then definitely schedule a showing for the Commission.

Carey L. O'Bryan, Jr.
Colonel, USAF
Deputy Director of
Military Application
