ROGER RAY SENDS TO HON ADRIAN WINKEL.

AS YOU KNOW, DURING THE FORTHCOMING SURVEY OF THE NORTHERN MARSHALLS, DOE SCIENTISTS WILL OBTAIN AND ANALYZE SAMPLES OF WELL WATER FROM A LARGE NUMBER OF INHABITED ISLANDS. OUR PAST EXPERIENCE WOULD INDICATE THAT SOME OF THESE WILL EXHIBIT COLIFORM COUNTS

W. Weyzen Info

SUFFICIENT TO BE A PUBLIC HEALTH CONCERN. IN PAST VISITS WE HAVE REPORTED SUCH FINDINGS TO TTPI AUTHORITIES AND ON OCCASION HAVE MADE RECOMMENDATIONS DIRECT TO THE RESIDENTS AS TO PREVENTIVE AND PURIFICATION MEASURES.

IT WOULD SEEM MORE APPROPRIATE, ANTICIPATING OUR EXTENSIVE VISITATION IN THE NORTHERN MARSHALLS, THAT ANY PUBLIC HEALTH RECOMMENDATIONS ORIGINATE WITH THE TT HEALTH AUTHORITIES. WE, HOWEVER, WILL BE MOST WILLING TO ASSIST IN DISSEMINATING SUCH INFORMATION AND RECOMMENDATIONS AND COULD, IF YOU WISH, DISTRIBUTE THE NECESSARY PURIFICATION EQUIPMENT AND SUPPLIES. I SUGGEST THAT IF YOU DESIRE THAT THE DOE TAKE ANY ACTIVE ROLE IN THIS MATTER (BEYOND SIMPLY GATHERING AND REPORTING DATA) YOU DESIGNATE A TTPI POINT OF CONTACT. SHOULD THIS REPRESENTATIVE WISH TO DISCUSS TECHNICAL DETAIL, HE SHOULD CONTACT DR NOSHKIN (ADDRESS ABOVE). OTHERWISE, REQUEST YOUR RESPONSE BE TO ME IN LAS VEGAS WITH INFO AS HEREIN.
