Mr. William A. Bonnet
U. S. Atomic Energy Commission
P. O. Box 580
Honolulu, Hawaii 96809

Dear Bill:

I am glad that you have been able to get the schedule for the survey straightened out. Though the Ralik Ratuk is far from a luxury liner it will serve our purpose and allow us to keep our schedule. I presume they will be able to follow our schedule which included Utirik and Jaluit.

You asked about security status for Dr. C. F. Demoise, he has none but Dr. Paglia has a "Q" clearance (LA-7133-WA-NY-CA). I do not see any need to have our orders here but will obtain them from you on our arrival. Thanks for the information on the immunization requirements and the new airline.

I will be arriving on February 19th at 4:30 p.m., Honolulu time on United Airlines Flight #21. If there is a small refrigerator in our room at the Edgewater, we can probably keep our biological materials there rather than at Hickum. Will appreciate use of a vehicle.

We plan on shipping the medical boxes via air around the end of next week (Jan. 25-26). Will let you know definitely later. Have not yet heard from Redstone about our entrance authorizations but assume we will hear soon.

Thanks for all your help and looking forward to seeing you in February.

Sincerely,

Bob

Robert A. Conard, M.D.
