Dr. Douglas Grahn
Geneticist, Biology Branch
Division of Biology and Medicine
U. S. Atomic Energy Commission
Washington 25, D. C.

Dear Dr. Grahn:

I will make my reservations and trip schedule to be there the 12th of May for a conference with you and Dr. Zelle. If our meeting finishes by May 11th I may call you and see if we can have the conference then and leave out that evening. However tentatively we will set May 12th as the date agreeable to you and with me for a meeting. I will send you a copy of my proposal for next year without waiting for it to clear Oak Ridge so we can discuss this when we are together.

We plan to leave for the Pacific July 11th or 12th. It will be necessary for you to have the headquarters in Albuquerque write our orders for us. This will include Dr. Marshall R. Wheeler and Dr. Marvin Wasserman in addition to me. I have a list of our clearance numbers as you mentioned. I am sure you have a copy of our orders from last year and we will not need anything special this year. We should hope to finish our work in a month to six weeks depending on facilities for collecting that can be made available to us in the Pacific Proving Ground area.

I look forward to seeing you next month.

Yours sincerely,

Wilson S. Stone
