FOLDER 01 THRU 12/1968

Dear Mr. Bonnet:

With reference to the Marshallese patients

They presently are on Ebeye awaiting travel. Sebio Shoniber, is due to arrive from Majuro on Sundays Continental flight. I will make the necessary arrangement to meet Sebio Shoniber.

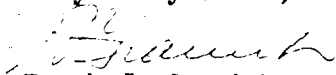

As requested by Dr. Conard to outfit the individuals with clothing for their trip, our local store has undergone an extensive rehab and will not reopen till Monday, July 29, 1968 as discussed with Dr. Conard I will handle this matter.

Per your wire new travel orders have been made and are on the way to me, based on this I have blocked 5 seats on Northwest flight departing Kwajalein August 2, 1968. However presently their is full plane and if the individuals are bumped will attempt to have them depart Kwajalein on Continental flight August 2, 1968, if I am unable to get them on the Continental flight they will definitely depart on Northwest flight Sunday August 4, 1968.

As soon as their itinerary is confirmed I will contact your office by TWX or phone. If I can be of any further assistance please let me know.
