

Note to Col. Hood *Jeb*

June 16, 1960 *Define Disput*

From: Lt. Col. S. W. Josephson *SWJ*

CNO, BuWeap, BuDocks, and JTF-7 representatives met today with Finance, General Counsel, C&S and DMA representatives, and with Mr. Udell from ALOO to prepare a second draft of the proposed AEC-DoD agreement; copy of which is attached at Tab A.

In this preparation we considered comments submitted to DMA by ALOO (Tab B) and by JTF-7 (Tab C). We were able to incorporate significant ALOO desires except for:

1. Relief from responsibility for AEC to rehabilitate or repair any craft on loan. The Navy representative, and the JTF-7 representatives speaking for the Army, simply would not agree to this proposal.
2. Transportation costs for shipment back to CONUS of AEC property after July 1, 1960. The best wording representatives would agree to appears at the end of Para 3, ". . . . borne by the DoD subject to the availability of funds."

The matter of whether the off-atoll sites are "included" is still not settled. JTF-7 is working on this to get a single DoD position. At the moment, CNO representative believes that DDRE does not want these outer-atoll sites included; CJTF-7 staunchly held that Admiral Parker and JCS spokesmen held the opposite view point.

DoD representatives are now seeking internal DoD coordination on the attached draft. AEC was represented by FIN, C&S and General Counsel, and I am quite sure they are contented with the content of the draft. Request your approval of draft at Tab A, recognizing, of course, that DoD may still ask for further changes to it.

At Tab D is a TWX to ALOO which officially brings them up to date on where we stand now. Recommend signature and dispatch.
