

Two Rongelap persons were also counted since they were residing on Bikini as of April 1978. These persons were:

401179

During the council meeting after the WBC work all of the questions that we were asked centered around the medical program. As best as I can recall the major questions were:

- 1) When were the Bikinians going to get ID cards like the Rongelap or Utrik people? Response: we don't know if or when they will get cards.
- 2) When do the Bikinians start getting the medical care like the Rongelap or Utrik people? Response: We don't know if you will ever be on a similar program. We do know that the medical team will have sick call once before 1980.
- 3) When do Bikinians get their medication? Response: We don't know if or when this would ever occur.
- 4) Can medical team send general medical supplies? Response: We don't know but will ask.

children. less than 5 would examine boxes. no record of when these boxes have been available since. Also a Longtopogram, being on Btk. during the April 1972 survey, were examined.

During the council meeting after the WBC work, all of the questions that we were asked centered around the medical program. <sup>proceedings</sup> ~~Resolutions~~ as I remembered the questions and answers, here is synopsis of our discussion:

1) When do we receive X-D scans like the Longtopogram Utah people and when are we then to receive medical care?

Response: We don't know if you will receive cards or if you will have a medical program like the Longtopogram Utah people. We will ask Dr. Pratt.

2) When will we be examined by Longtopogram Utah people?

Response: We don't know when or if you will ever get the examinations given to these other people. We do know that you will receive at least one sick call visit by your medical team prior to 1980.

3) Will B. receive get free medications for all time? Response:

We don't know if or when this would occur.

4) Can medical team send you at medical supplies prior to visit? Response: We don't know but will ask.
