James L. Liverman,
Director, Division of Biological and Environmental Research
US ERDA
Washington, D.C. 20545

Kwajalein 9/16/76

Dear Dr. Liverman:

Your telegram and your "letter to myself" and to the people of Uthik arrived the other day. I have asked You Aifee Duck to translate your letter to Uthik, and I have sent it as a radio message on the TV network.

I shall handcarry your letter and the translation to Uthik.

I enclose copies of the translated letter and the radio message.

I do not yet know what we expect when we arrive at Uthik. I know the engineers, Jensen, has been in contact with Mr. Aifee de Mojuro and I assume this means a new user in Uthik.

I appreciate your concern for the implement facilities.

Sincerely Yours

Knud Knudsen
Knud Knudsen.
