s

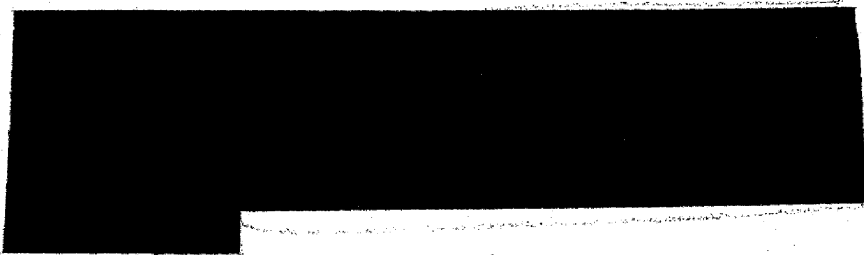

7. AEC 597/23 - Program for Forthcoming Tests (See Minutes of Meeting 920)

Under consideration was a report by the Director of Military Application recommending in part that the Commission approve the scope of the CASTLE program as proposed in the subject paper and also approve the scheduling of the first test for March 1, 1954. General Fields said that the proposals of the present paper were those which had been discussed with the Commission at Meeting 920. However, it now appeared that it would be desirable to inform the MLC of the Commission's action and to request DOD support of the operation by a letter rather than by forwarding to them the copy of the staff paper.
