Dear Mr. Bonnet:

The annual medical survey of the Marshallese people who have been exposed to fallout, at 13 years post exposure, was successfully completed in March. I would like to thank you for the splendid support of the Atomic Energy Commission in Honolulu. Your group contributed a great deal to the success of the surveys. I would particularly like to express my appreciation to Mr. Neil Rasmussen for his untiring efforts on our behalf. I appreciated very much your arranging his visits with me to the Islands in order to accomplish logistic support. This was most helpful.

You will receive our medical reports on the results of these surveys when completed.

Most sincerely,

 Robert A. Conard, M. D.
