Thank you for your letter introducing yourself as the ^{new} resident physician at Kwajalein.

To explain the complete budget situation in one letter would not be feasible, but the following paragraphs attempt to sketch it and offer answers to your specific questions.

1. The budget for the Medical Examination Programs was and is \$55,000. We have been informed verbally that a new amount available will be \$90,000. This includes the \$10,000 you associated with Dr. Waysen.
2. Through May, total costs amounted to \$48,300, with anticipated additional costing of about \$12,000.
3. The costs are valid and include approximately \$4,000 paid by H&N for packing and crating and port handling costs for the new trailer now at Ebeye.
4. I am enclosing a copy of the monthly statement for May for the Medical Examination Program, and shall be glad to send you copies of future monthly statements. Of course copies are also available to Dr. Conard.

I look forward to meeting you, and please do not hesitate to request any further information you may wish.
