Dear Dr. Cronkite:

Thank you for your kind letter of March 27.

I sent a letter of inquiry to Dr. Paglia and hopefully he can spend his sabbatical year at RERF. If the expenses of his travel and stay at RERF have to be covered by RERF, the possibility of such arrangements will be considered by Dr. Clifton and Mr. Jablon. I feel that Dr. Paglia's interest in biochemical genetics would be appreciated by RERF, and he could make a contribution to the BGS program.

Per your suggestion, I will contact Drs. Harigaya and Inoue. However, the chance of recruiting these pathologists might be slim, because they have to return to the institutes where their position is being held.

The cherry blossom trees are in full bloom now on Hijiyama Hill. I wish that you were here to enjoy them.

Thank you again for your help.

Sincerely,

Toshio Fujikura
Toshio Fujikura, M.D.
Chief of Pathology
