A Public Policy Statement on the Development of the Building Industry

January 1966

The National Shelter Policy Commission has developed this policy statement and groups in the building industry. The policy statement puts great emphasis on the need for Government leadership in providing technical assistance.

Through its early program of technical assistance, the Commission has developed a research program of the Housing Agency, and a series of important steps to support it. The National Shelter Policy Commission has designed a continuing program of technical assistance to the building industry.

All of these steps have been designed to help the building industry in the development of a more efficient and profitable building industry. The Commission is providing real encouragement to the building industry. We are also working closely with the building industry and the public to help the building industry. The National Shelter Policy Commission is providing technical assistance.

Before the Commission can provide technical assistance, it must first identify the needs of the building industry. The Commission is providing technical assistance to the building industry.
