Attention: Mr. H. B. Devore

Gentlemen:

The Atomic Energy Commission was particularly fortunate in having your organization contribute to the instrumentation for the Commission's Proving Ground at Eniwetok Atoll.

The gratifying scientific results of the 1948 proof tests were made possible by the very effective equipment which your company engineered and produced in record time.

Please convey to all members of your organization engaged in this project the Commission's appreciation.

Sincerely yours,
