required by the Atomic Energy Commission, and security, as necessary to prevent unauthorized agents securing valuable scientific data. Because of data not available until tests are completed, the cost of such facilities cannot be estimated at the present time, but will be covered by separate request and are not included in the figures above.

UNITED STATES  
ATOMIC ENERGY COMMISSION  
WASHINGTON

May 7, 1948

MEMORANDUM FOR THE CHIEF OF STAFF, U. S. ARMY.

Subject: Refund of Armed Forces Participation Funds  
in Connection with Operation SANDSTONE.

This will acknowledge receipt of your memorandum of April 28, 1948, on the above subject. Thank you very much for your promptness in informing us of the funds which will be returned to the Commission.

We have noted that the estimated post-SANDSTONE costs of the Armed Forces for the fiscal year 1949 will be \$4,000,000, plus the cost of installing certain facilities which may be decided upon as necessary after SANDSTONE is complete. It is suggested that necessary fiscal arrangements in this connection can be accomplished most easily by direct conversations between the appropriate representative of the Armed Forces and the Commission's Director of Budgets.
