Dear Bob:

I am writing this letter knowing that you will be glad to know that all the Marshallese patients had gotten home safely and they are doing pretty well. _____ are still on Ebeye now. _____ stayed 4 days on Ebeye before she left to Rongelap. There is no ship to Utrik yet since our arrival from New York. That is why _____ and her family are still on Ebeye. Mr. Frank Granich and I are still looking for _____ husband job on Kwajalein but we have no luck so far. I am planning to go to Kwajalein this week-end to see Mr. Frank again about the delay in having _____ husband start working for Global Associates, Kwajalein.

By the way, _____ still haven't received money from the Trust Territory Government yet. I hope you will have an opportunity to write to Mr. William H. Vandling about this. _____ sure need money now.

I am sure you wouldn't mind if I tell you that I didn't take _____ to Kwajalein hospital for blood calcium check up because she never shown symptoms or signs of tetany. As a matter of fact, she is doing very well. They are all taking their daily pills.

I hope everything is alright with you and your medical staff there. I and the patients really enjoyed our staying in New York. It was a new experience for all of us. The patients join me in sending our best regards to you and all of your medical staff. With warmest regards to your family.

Very sincerely yours,

Erya Riklon
