Op. Greenhouse CL 1

TO	Dr. Thomas L. Shipman
FROM	Glenn A Vogt
SUBJECT	Pathological Specimens from the Pacific - Shipments - Schedules.
SYMBOL	H-47

DATE: April 6, 1951

In the event no one else has provided your office with the details concerning the subject, we will show following this paragraph all the information at our disposal.

Arrangements have been made as of this date for a Carco Bonanza Airplane to fly to Suison Air Base from Los Alamos one day prior to expected arrival of frozen samples from the Pacific. Arrangements have been made for the first flight to leave Los Alamos with dry ice aboard, at approximately 8 am Sunday, April 8th with Bill Wilson as passenger who will see to the repacking of the specimens with dry ice and return to Los Alamos early the following morning. Mr. Harry Allen has forwarded as of 4/5/51 an urgent teletype to Dr. Langham asking confirmation of expected shipping dates and will advise of his reply.
