Mr. Paul J. Spahr
Field Manager
Honolulu, T. H.

SUBJECT: SURVEY DATA, BIKINI ATOLL

The hydrographic chart for this atoll indicates that a certain amount of survey work has been accomplished. The available notes for this survey would be of considerable assistance to our Engineering Division in making future surveys. It would be appreciated if your office could secure any available information on this subject either from the Hydrographic Office or the U. S. Coast and Geodetic Survey.

Among the items that would be useful are descriptions, geographic positions, elevations, and coordinates of monuments established; order of work; astronomical observations; and observed angles.
