At a recent meeting of Laboratory Program Directors with Mrs. Clusen, I brought up the subject of Enewetak and the Northern Marshall Islands. Chet and Hal Hollister were present. The point emphasized to Mrs. Clusen was the lack of "a person in charge." Thereupon she asked Hal to suggest a solution. Chet, Mort Mendelsohn, Vic Bond (Mort and Vic - because of their staffs' direct involvement in projects in the Pacific) and I were to provide input to Hal.

Attached is a copy of my letter. I hope the views expressed are in reasonable agreement with yours--but recognizing that such might not be the case, I included a disclaimer.
