AEC 43/713

SYMBOL: BMM:CLD

We note with interest AEC 43/713. Inasmuch as the discussions referred to under paragraph 5 are of special interest to the Division of Biology and Medicine, and it was planned that the entire meeting take place under Area 2 (Health and Safety) of the Technical Cooperation Program, it is hoped that we can be provided with a full report at an early date.

43/703, received in this office September 30, was the first intimation we had of such a meeting, although obviously plans were well advanced by that time, and the areas for discussion had been defined. The Division of Biology and Medicine would appreciate being advised of such exchange of information meetings within Area 2 in sufficient time to plan to participate, if in our opinion such participation would seem useful.
