Dear Lewis:

I am attaching a copy of a letter from Thomas E. Murray. I believe you know about it.

I have not been informed as to the character and nature of the forthcoming tests. Consequently I am not in a position to decide whether an un-cleared observer could gain and pass on secret information to some other power.

Will you please consider this matter and talk to me about it when you can? Possibly I might impose upon you to prepare a draft of a suitable reply.

As ever,

RS
