Date December 1, 1980  
To Leila Counts  
From Bill Baird  
Subject Marshallese Information and Education Program Plan

I want you to know how valuable the efforts of Irene Hays and Ray Baalman were in getting this Program Plan developed and written. They not only made important contributions to the plan itself, but they worked many long hours including nights and weekends to complete the numerous revisions required to respond headquarter's comments.

Your "premonition" in assigning Irene to us still amazes me. She very ably picked up the pieces when Ray was confined to the hospital and, with Ray's helping as much as he could from his "sick bed", Irene got the job done. As you know, at times it was extremely difficult. I know that Mrs. Clusen and Dr. Wachholz are as much appreciative of their efforts as Carl and I are.
