SUBJECT: Agreement for allocation of costs at Eniwetok

When the AEC informed the Dept. of the Army of its approval of the JCS plan for Eniwetok roll-up, they accepted the principle that the Commission would allocate funds as may be necessary to defray cost of housing the garrison and any special items not normally borne by the Services as part of their routine operation, and noted that representatives of the NME and the Commission would get together on the details of this financing.

If the GM approves and signs the proposed memorandum of concurrence, it might be well to put it out to the Commission for information.

Mac - Thanks; meanwhile it would seem we could file.
