MARSHALL ISLANDS COMMITTEE MEETING NO. 2

At our first meeting on September 22, 1977, it was agreed to meet again in mid-November. A review of schedules indicates November 22, 1977, as the date for the next session. We propose 9 a.m. not knowing how many items will be on the agenda.

To date, the following subjects have been suggested for the agenda:

1. Receipt of any comments on the summary statement for the September meeting,
2. Briefing by Roger Ray - Meeting with the TT High Commissioner and representatives of the Bikini leadership,
3. Presentation - Social Psychological Impact Considerations of Marshall Island Rehabilitation Activities by Joseph E. Trimble, Battelle, and Robert Kiste, University of Minnesota,
4. Briefing by Joe Deal and Roger Ray - Status of planning for the 13 Atoll survey,
5. Briefing by LLL - Progress with garden plots at Enjebi and Eneu,
6. Briefing by BNL - October 1977 survey trip to the Marshalls,
7. Briefing by NV - Status of NV technical support of Enewetak Cleanup Commander.

Any comments on these items or suggestions for additions should be provided to Tom McCraw in time for input into a final agenda that will be distributed the week of November 14.
