7. Weapons Testing Program

Brig. Gen. McCormack reported on the Weapons testing program.

Mr. Dean commented on the unusual circumstances in connection with the unilateral selection by the Armed Forces of the new Task Force commander and suggested that the AEC obtain a statement of the mission of the new JTF-132, which replaces JTF-3.

Mr. Pike mentioned that future plans should take into consideration means of speeding up overseas test preparations. This should be taken up with the Task Force in view of the possibility that the results of BUSTER might make additional tests at Eniwetok necessary on short notice.
