MEMORANDUM FOR JAMES LAY, EXECUTIVE SECRETARY  
NATIONAL SECURITY COUNCIL

I talked over with the President the question of announcements concerning the test series. He agreed that in view of the fact that we are anxious not to say anything about a specific shot, it is desirable to hold any release until the series is completed, if this is at all possible.

He also agreed that it was best to make some kind of announcement since we have always done this in the past at the conclusion of the series and that it was best to handle any reference to thermonuclear experiments in about the same language as used in our release of May 25, 1951 on the GREENHOUSE program.

With these thoughts in mind, I would suggest that we plan to use at the conclusion of the test series Annex C to Appendix A, as amended slightly in the attached draft.
