Office Memorandum • UNITED STATES GOVERNMENT

TO : BRIG. GEN. James McCormack
FROM : T. O. Jones
SUBJECT: PRELIMINARY REPORT ON ENIWETOK TESTS

DATE: September 14, 1948

This is to confirm the understanding reached in my discussion with Colonel Freuss today that the Military Application Division will be prepared to make a preliminary report on the Eniwetok tests results (presumably the scientific director's report) on or before December 1, 1948.

I would appreciate learning of any developments which might make it necessary to alter this date.
