**BEST COPY AVAILABLE**

Dear Jim,

Once again let me thank you for your help in locating field staff for the September-October, 1979 survey on such short notice.

At this time I would like to request that Dr. Harvey Heidinger accompany us on this survey. He will leave Los Angeles on September 17 and return on October 19, 1979. During that time he will work with us on Ebeye, Rongelap and Utirik. We will furnish transportation and per diem costs (all lodging and \$13 per day meal allowance). In addition, Dr. Heidinger will receive an appointment as a collaborator to the Marshall Islands Study, Brookhaven National Laboratory.

We value the chance to work with you and your colleagues at Loma Linda University and look forward to having you participate on a survey in the future.

Warm Regards,

Hugh S. Pratt, M.D.  
Director  
Marshall Islands Study
