be unrealistic to anticipate that the four conditions referred to above (i.e., in our letter of May 15, 1979) could be assured for the next 20-25 years, particularly in light of the immediate past experiences at Bikini Island.

NORTHERN MARSHALL ISLANDS RADIOLOGICAL SURVEY. NEVERTHELESS, OUR RECENT radiation dose estimates confirm the above conclusions in showing that without a diet consisting of approximately 50% imported foods, plus other restrictions as identified above, United States radiation standards would be exceeded by residents on Eneu Island for approximately 20 years.

I hope that the above is responsive to inquiries by you and by Senator Balos.

Sincerely,

Bruce W. Wachholz
