Mrs. Ruth G. Van Cleve  
Director  
Office of Territorial Affairs  
Department of Interior  
Washington, D.C. 20240

Dear Mrs. Van Cleve,

Listed below are the names of additional Marshallese people who were exposed to fallout who you may consider for compensation:

<u>BNL No.</u>	<u>Name</u>	<u>sex/age</u>	<u>Island exposed</u>	<u>Present location</u>	<u>status</u>
4		M 61	Rongelap	Ebeye	hypothyroid
32		M 27	"	"	"
63		F 59	"	"	"
71		F 51	"	"	"
78		F 60	"	"	"
37		M 43	"	"	thyroid surgery
2261X		M 50	Utirik	Majuro	" "

This list brings up to date the exposed people who have conditions to be considered for compensation. The diagnosis of hypothyroidism has been based on a number of sensitive tests of thyroid function. It is quite likely that other exposed Marshallese will develop compensatable conditions in the future. We have several additional suspicious cases at present. If there is any further information you need, please let me know.

Sincerely,

Robert A. Conard, M.D.

RAC:gc  
CC: Dr. Walter Weyzen, DOE  
Dr. V.P. Bond, BNL  
Dr. E.P. Cronkite, BNL
