Tuesday March 30<sup>th</sup>

Dear Nell-

I'm back in the U.S., as you can see, and vacationing with bullion here for a few days before returning to N.Y.

I've some samples of plasma from 6 persons which I shall send to you as soon as I get back to my lab. I found the infected milk and the 1 ml. pervette. Do you want me to send these on to you also?

The trip was good and I suppose successful. I hope this finds you & you well

Best regards  
Lee
